- From 6 November to 8 November 1946 thirty-one reparations orders, numbered from R-01/68 075 to R-01/68 098 and from R-01/68 100 to R-01/68 106, were distributed by the SMA. These orders call for delivery of 43,500.08 dz. (Doppelzentner) of field and vegetable seeds from twenty-five seed firms of the German Seed Society (Deutsche Saatzuchtgesellschaft).
- The Saxony-Anhalt share of deliveries of seeds on reparations account was at one time established by the Russians at 22,500 dz., but officers of the SMA Reparations Division, particularly Major Petisov and his colleagues, have already requisitioned 62,000 dz. of seeds. Moreover, the above orders exceed the 22,500 dz. maximum, and there is no assurance that there will be no more orders later. Efforts are being made to have the above-mentioned reparations orders reduced.

**Comment:** A table of orders for the whole Russian Zone, referred to in the letter, was not included with source's report. The abbreviation "dz." stands for the German "Doppelzentner" or "double hundredweight". There are certain discrepancies between the figures given in the above letter and those found in the tables attached. No explanation is given for the title of the first column of figures in Table II. The third column of Table II would, at first glance, seem to duplicate Table I; however, since the figures are somewhat different, they have been given in both places.
